Annual
Excellence
BULL & FEMALE SALE

OFFERING 43
LIMOUSIN & ANGUS BULLS

THURSDAY **MARCH 12** 2:00 PM
AT THE RANCH • WESTLOCK, ALBERTA

Welcome...

We would like to invite you to the 4th annual Excellence Sale, which is our 32nd pen of bulls for sale.

First and foremost, thank you to everyone who has bid, bought or inquired about Excel genetics over the last year. As a family run operation, rooted in the commercial sector, we value quiet, fertile, low maintenance females who can ultimately produce with less attention, little management and lower cost. We have done this without compromising quality. Quality that will net you a premium, and that premium shouldn't require more work! We are here to help you achieve strong market prices and top dollar.

Our repeat customer base is something we are extremely proud of and strive to make our ranch the place you want to buy bulls.

Customer service is #1.

There is not much we enjoy more than helping you select the right bull for your herd, touring your herds, attending your events and watching your calves sell at the mart. Customers have become some of our most treasured friends and for that we are grateful.

We've expanded our breeding females to over 200, without expanding our bull pen, ensuring you are getting the very best. Our bulls are fresh, hard muscled, athletic, and they are bred and developed responsibly with longevity in mind. They are

brought along slowly, nothing but their momma's and grass until they are weaned, then wintered on a ration we have found to work very well for ourselves and our customers over the years. The 2-Year olds are also sent to pasture in the summer and hardly see us again until winter. The 2-year olds are not left overs, rather bulls that were handpicked specifically at weaning based mainly on age but sire groups and color so we have a diverse offering each year. They are then developed longer to give you a larger more athletic bull that will cover more ground and animals.

In our developing Angus division we are committed to the same quality you have come to expect from our Limousin. We've been building it slowly and culling extra hard to start things off very strong. Offering both breeds allows our customers to take full advantage of crossbreeding to get that extra boost of hybrid vigour.

All bulls along with the rest of the herd are on a total herd health program. We work closely with our veterinarian to ensure we're raising a healthy group of animals. All bulls are semen tested and vet inspected. Before calves head to pasture in the spring they are given Bovi-Shield Gold one shot & Vision 8 Somnus. They are boosted pre-weaning with the same

two vaccines and then the coming 2-year old bulls are also boosted with Bovi-Shield Gold FP in the fall. Breeding females are given Bovi-Shield Gold FP pre-breeding, Covexin & Scour Bos in the late fall. Everything is also given Ivomec and Safeguard.

You aren't just buying bulls from Excel, you're investing in decades of strong ethics, precise genetic selection, sincere customer service, and the highest productivity. Join us at the ranch for the sale and some excellence hospitality before and after! Bulls and the entire herd are available for viewing anytime, with three little kids around here the coffee is literally always on. See you soon!
